# What exactly am I suppose to do ?

## For contract job:

- Every businessman wants to grow his business
- We have to tell him how he can grow his business, and how we can help him
- Company had already shared readymade presentations and videos. We have to show the same to him, get him registered. Registration is free. Convince him to purchase some ad package.

# What exactly am I suppose to do ?

- On an average 6-8 registrations can be done.
- There is a maximum limit of average 10 registration / sale per day in a month.

# What exactly am I suppose to do ?

## For contract job:

- Say, I did average 8 registrations+ sale every day, In a month I have 26 working days. How much can I earn?
- Total Registration + sale =  $8 \times 26 = 208$
- I earn commission of Rs 500 on 208  
=  $208 \times 500 = \mathbf{1,04,000 !!}$

(TDS 3.75% applicable. Yearly TDS certificate will be given)

# What exactly am I suppose to do ?

## For contract job:

- Say I am a **poor performer**, I could do only 5 registration + sale in a day, For 26 working days, how much can I earn ?
- Total registrations + sale =  $3 \times 26 = 78$
- I earn Rs 500 commission on each  
=  $78 \times 500 = \mathbf{39,000 !!}$
- (TDS 3.75% applicable. Yearly TDS certificate will be given)

- That’s all !!
- Every moth, by 5<sup>th</sup>, last month’s full team earning will be credited to your registered bank account.

# Business

For a team size of 10, how much can I earn ?

- Say, average just 6 registrations / sale per day. Normally its always higher than 6, so your earning will be definitely higher than this.
- $6 \times 26$  (working days ) = 156
- KSS pays Rs 500 commission
- Per head how much do I earn?
- $156 \times 500 = \text{Rs } 78000$

# Business

- My business model is, I pay Rs 18000 for first 100 sale every month. And beyond that pay Rs 220 for every sale.
- Extra payment  $56 \times 220 = 12,320$
- Total  $18000 + 12320 = 30320$
- My profit =  $78000 - 30320$   
I earn = **47,680 per head**

# Business

- If my team size is 10,
  - $47680 \times 10 = \mathbf{4,76,800}$ /Month !!
- If my team size is 20,
  - $47680 \times 20 = \mathbf{9,53,600}$ /Month !!
- If my team size is 30,
  - $47680 \times 30 = \mathbf{14,30,400}$ /Month !!
